

How To Replace Your Old Central Heat & Air System for as low as

\$16 A Week*

and have Lower Utility Bills

...and best of all, you don't have to put any cash down.

But you must act now while the special circumstances that created this unique offer are still available.

Plus...with a Premium System, receive a Duct Cleaning or UV Air Purifier FREE! A \$625⁰⁰ Value!!!

Our Problem Is Your Opportunity™

Every year we have to guess how many high efficient premium 13 plus heat pumps, furnaces and air conditioners to buy to meet the "emergency Demand". Of course we're never exactly right. We currently have over 50 systems in our warehouses that we need to move today, and are willing to pass a great savings on to you.

Here's How You Benefit From Our Problem.

We have a **Great Financing** plan with a **Low Interest Rate, No Monthly Investment** for 12 months and **No Money Down**. Right now you can replace your old and inefficient heat pump, air conditioner and gas furnace for as low as \$16 a week and have lower utility bills. That's **No Money Down** and the amount financed at a great interest rate. If that's not enough, we will give you a **free duct cleaning or Eclipse Air Purifier, yes it's True!***

There Is Another Remarkable Advantage.

If your central heating and air conditioner is over 10 years old, it's a safe bet the money you save on utility bills will help you offset the monthly investment on your new system. Why pay the utility company to run that old, out of warranty system when you can use the money you save on energy bills and invest in a new system or other things.

Here's How...

Just call for your Free Energy Survey. We will make an appointment at your convenience, even on Saturdays. One of our comfort advisors will come survey your home and discuss these systems and our fantastic financing programs to help determine which package is right for you. **Call Today, the special circumstances making this possible is limited and this special offer ends when all the systems in our warehouse are gone.**
